## Seacole PA Liquid Deicer

### Product Description

Seacole PA Liquid Deicer is a potassium acetate deicing agent that is an alternative to standard pelleted ice melt. Safe for use near grass and landscaping.

### Performance Features

- Easy to spread
- Safe for use near plants and animals

### Physical Specifications

Physical State	Liquid
Appearance	Clear
pH	8-10
Freezing Point	-70°F

### Equipment Requirements

Seacole PA Liquid Deicer can be applied using a standard lawn and garden sprayer. Sprayer tanks can be mounted on an ATV, truck, or tracker.

### Product Make-Up

Seacole PA Liquid Deicer is a ready to use product. Do not dilute.

### Concentration and Application Method

Saturate the surface with PA Liquid Deicer to prevent icing. Reapply when new accumulation of ice or snow appears. Recommended to be used prior to snowfall or icy conditions. Coverage depends on temperature and ice thickness. Seacole recommends approximately 3 gallons per 1000 sq. ft.

### Companion Products

Please see Seacole Product Catalog

### Safety and Handling

Please review and understand the Seacole PA Liquid Deicer SDS before handling.

### Waste Treatment

Individual users should verify the nature of spent solutions to assure compliance with local, state, and federal regulations.

### Ordering Information

Seacole PA Liquid Deicer is available in 4x1-gallon bottles, 55-gallon drums, and 275-gallon totes.
