## C&H 555

### Product Description

C&H 555 is a liquid version of our popular C&H 517 cleaning and deburring compound. C&H 555 is an excellent non chromated liquid cleaner for use on all metals in deburring and grinding operations. C&H 555 is formulated with advanced in-process rust protection and anti-foam package.

### Performance Features

- Suitable At Any Concentration For Zinc And Even The Most Sensitive Aluminum Die Castings, As Well As All Ferrous And Non-Ferrous Metals And Plastics
- Removes Oils, Grease, Shop Oils, Rust Protective Films And Other Contaminants
- Keeps The Media Free Of Contaminants
- Mixes Easily Without Agitation, Leaving No Undissolved Particles To Pack Into Holes Or Crevices, Or To Plug The Drain System As Some Powders Might
- Keeps A Low Foam In Agitated Systems
- Protects Parts From Rusting And Corrosion During Processing
- Does Not Have The Tissue Irritating And Toxic Hazards Of Chromate

### Physical Specifications

Physical State	Liquid
Appearance	Pale Amber
pH (Use Dilution)	9 - 10
Rinseability	Excellent

### Equipment Requirements

C&H 555 is safe for use in all standard mass finishing systems. Operation of equipment should be done in accordance with the equipment manufacturer's instructions.

### Product Make-Up

C&H 555 is a concentrated cleaning and deburring compound. Dilute to specified strength concentrations.

### Concentration and Application Methods

Add .5 - 4 oz. of C&H 555 per gallon of water for mass finishing solution. Rinse parts with fresh water after finishing.

### Safety and Handling

Read and understand this product SDS before handling.

### Waste Treatment

Individual users should verify the nature of spent solutions to assure compliance with local, state, and federal regulations. Contact Seacole for specific details and/or further waste treatment recommendations.

### Ordering Information

C&H 555 is available in 55-gallon drums.
