## Bill's Bug Blaster

### Product Description

Bill's Bug Blaster's enhanced bug cutting formula is often effective without scrubbing – just spray and wipe clean. Bill's Bug Blaster removes bug residue, normal dust and dirt, most greases and oils, and most exhaust staining. It is harmless to enamel surfaces, polyurethane, clear coat paints, and polished aluminum. Bill's Bug Blaster can be used in auto, bus, truck, RV, and marine applications.

### Performance Features

- Softens and Dissolves Dead Insect Residue from Hard Surfaces
- Is Specially Designed to Clean Transportation Vehicle Exterior Surfaces, Including Polished Aluminum
- Plexiglas or Acrylic Windshields, Clear Coat, Or Polyurethane Paints
- Has a Safe, Water-Based Formula that Contains No Phosphates or Petroleum Distillates
- Dries Quickly Without Residue

### Physical Specifications

Physical	State Liquid
Rinseability	Excellent
pH	8-10Sub
Appearance	Clear
Foam	Minimal

### Equipment Requirements

Bill's Bug Blaster is safe for use with all standard cleaning equipment.

### Product Make-Up

Bill's Bug Blaster is packaged and ready-to-use.

### Concentration and Application Methods

Spray Bill's Bug Blaster on bugs. Let it soak for 1 to 4 minutes. If surface dries before wiping, re-apply product. Pressure wash or wipe off. Use plenty of the product and a soft cloth to avoid scratching windows. If bugs remain, repeat process including the soak time while keeping the surface wet.

### Safety and Handling

Read and understand this product's SDS before handling.

### Waste Treatment

Individual users should verify the nature of spent solutions to assure compliance with local, state, and federal regulations. Contact Seacole for specific details and/or further waste treatment recommendations.

### Ordering Information
