

Technical Data Sheet

Product Code: A543XXX Revised Date: 5/01/025

C&H 543

Product Description

C&H 543 is an economical, liquid compound designed for burnishing all metals in mass finishing systems.

Performance Features

- Safe For Use On All Metals • Provides Good Lubricity For High Quality Burnishing
- Provides Both Cleaning And Burnishing Actions
- Prevents Steel Media From Rusting And Maintains Bright And Clean Finish
- Creates NO Undissolved Particles to Pack Into Holes or Crevices or Drain Systems

Physical Specifications

| | |
|-------------------|----------------------|
| Physical State | Clear Viscous Liquid |
| Appearance | Red |
| pH (Use Dilution) | ≈ Neutral |
| Rinseability | Excellent |

Equipment Requirements

C&H 543 is safe for use in all standard mass finishing systems. Operation of equipment should be done in accordance with the equipment manufacturer's instructions.

Product Make-Up

C&H 543 is a concentrated burnishing compound. Dilute to specified strength concentrations.

Concentration and Application Methods

Burnishing

3 - 4 fl oz. of 590 per gallon of water.

Cleaning

1 - 2 fl oz. of 590 per gallon of water.

Note: This product is safe to use at any concentration level. The dilution may be varied as necessary to meet the needs of different machine types, media, parts, finish desired, and operator preference.

Companion Products

See Seacole's 500 Mass and Metal Finishing Series.

Safety and Handling

Read and understand this product SDS before handling.

Waste Treatment

Individual users should verify the nature of spent solutions to assure compliance with local, state, and federal regulations. Contact Seacole for specific details and/or further waste treatment recommendations.

Ordering Information

C&H 543 is available in 5-gallon pails and 55-gallon drums.
